22' C-Dory on the left. 23' Cape Cruiser on the right

Note: Cape Cruiser (foreground) has larger bow rail and four lap lines

The Cape Cruiser on the Left has a full height splash well, larger cockpit and flat floor.

The Cape Cruiser has a broader bow width and full bow rail.

The Cape Cruiser (right) has a 7" gunnel width vs 5" on the C-Dory

The Cape Cruiser (right) has a more spacious cockpit area with larger steps, fuel tanks and a rear draining deck

The Cape Cruiser (right) has a load bearing roof with non-skid area and a built in radome pad.
