

Where do we cruise?

That's the beauty of the C-Dory... it's a "trailerable trawler." Instead of days of monotonous passages, we can put her on a trailer and haul her coast-to-coast if desired. Go

to where the good cruising is: the San Juan Islands in the summer, the Keys in the winter. As the song says, "Going where the weather suits our clothes."

Accommodations...

- Hot and cold pressure water
- Enclosed head with shower
- Refrigerator
- Stove/heater
- 30 amp electrical system
- 6'4" V-berth
- Canvas enclosed cockpit
- Dinette
- Galley
- Wireless broadband internet

All the comforts of a cabin on the water... with the ability to go the ocean, mountain lakes, and inland waterways. Hi-tech navigation equipment to get you there. 400 mile range.

Wild Blue... off we go!

Test Power: 1 x 150-hp Honda 4-stroke

Performance/Living Aboard

The above performance chart shows typical operating performance.

Unlike larger yachts, Wild Blue can get into shallow waters and still provide comfortable living aboard. Peaceful anchorages unreachable by vessels with a deeper draft are no problem. 6'10" cabin height.

At the forward cabin is a 6'4" V-berth. Behind that on the starboard side is the enclosed helm station, followed by the galley, then the enclosed head. On the port side is the dinette (that converts into a single berth). The forward seat can be reversed so that all seating is forward facing. Ample storage.

Behind the cabin is the self-bailing cockpit. Wild Blue is equipped with a full canvas enclosure, providing more living space.
